This animal has long ears and likes to hop; it likes to eat lettuce and carrots.

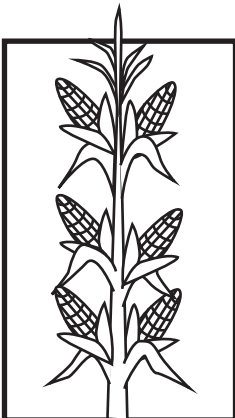

This plant grows very tall in the summer. You can eat it on the cob or pop it.

This insect spends part of its life as a caterpillar and then goes into a cocoon.

This plant grows along the ground and produces a fruit that you can carve or make a pie out of.

This animal when it is young makes a cheeping sound, when it grows up it says "Cock-A-Doodle-Do"

Garden Story: Introduction to Trinity Gardens

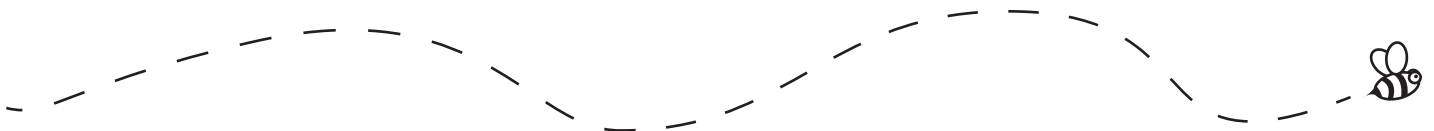

Trinity Gardens is a community garden located in Santa Barbara, California. We provide land for people to grow their own food and flowers. Trinity Gardens also grows fruit and vegetables to donate to people in the community. In the summer we grow a lot of pumpkins, beans, zucchini and tomatoes. In the winter we grow peas, lettuce, carrots and swiss chard. We also grow flowers for the pollinators, some pollinators are bees and butterflies.

Vocabulary Review:

What is a Community?

What does it mean to Donate?

What do Pollinators do?

Harvest Song

Pumpkins are ripe.
Corn stalks are tall.
Harvest time is best of all!

Pumpkins are ripe.
Corn stalks are tall.
Harvest time is best of all.

Autumn breezes fill the air.
Sing and dance without a care.

Autumn breezes fill the air.
Sing and dance without a care.

Pumpkins are ripe.
Corn stalks are tall.
Harvest time is best of all!

Pumpkins are ripe.
Corn stalks are tall.
Harvest time is best of all.

Canción de la cosecha

Las calabazas están maduras
Maiz esta alto
El tiempo de cosecha es lo mejor de todo

Las calabazas están maduras
Maiz esta alto
El tiempo de cosecha es lo mejor de todo

Brisas otoñales llenan el aire
canta y baila sin importancia
